# Set Meal (Menu)

Here is the feature for creating **menus** or **bundles** for a business. You'll be able to create as many menus as you want.

Here is what it looks like:

- **"Title":** for example: *"Kid's menu"* or *"Brunch".*
- **"Price":** This field isn't mandatory, as you can enter the price in the menu description, but it's recommended.
- **"Description":** Describe your menu here.
- **"Rules":** This field isn't mandatory. You will be able to use it to specify some conditions, for example *"only available on mondays".*
- **"Picture":** Add a picture to describe your menu.

It will look like this on the phone:
